## HOSINOX customer experience centers

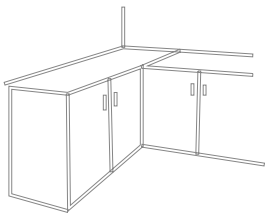

### Unique value proposition

In our global medical training centers, users and planners can work together with HOSINOX experts to plan and design their medical workplaces under realistic conditions.

Surgical teams can experience how easy and quick it is to set-up their OR for surgery in a completely integrated.

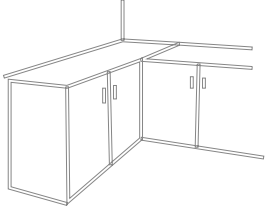

## MODULAR FURNITURE SYSTEM

The **HOSINOX modular furniture system** was designed with the needs of medical staff in mind, taking into account the demands of our customers and guaranteeing the highest standards of hygiene, functionality and ergonomics but also comfort and safety during use. HOSINOX's modular medical furnishings are characterized by a user-friendly design and delicate contours, allowing limitless possibilities for customization and ensuring the optimal utilization of hospital space. Keeping in mind the specialized demands of the health sector, the HOSINOX modular furnishing line ensures the best utilization of internal cabinetry space, offering a wide range of practical solutions matched to the needs of our customers and allowing for individual interior design by the user.

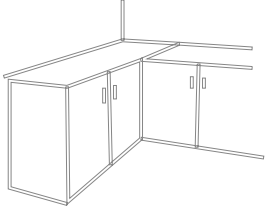

MODULAR  
FURNITURE SYSTEM

The modular furniture system by HOSINOX offers various types of high cabinets, low cabinets, suspended cabinetry, cabinetry extensions, tables and tables with embedded sinks. From this wide range of products our customers are able to design interiors for many purposes, choosing specifications as detailed as the number of shelves and drawers according to individual needs. Furnishings are made from durable, stainless steel or powder-coated sheet steel, painted from one of the colors of the HOSINOX palette.

## SCRUB SINKS

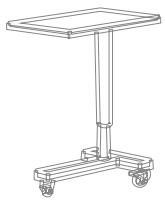

### WALL MOUNTED SCRUB SINK HAND

SS 304 AISI Wall mounted scrub sink hand wash stations are secured directly to a wall and include clearance below sink for cleaning or storage purposes.

The manual operated stainless steel scrub sink is for the economical users who prefer a less expensive product with the same quality construction. The two knee operated panels provide water flow and soap dispensing with the simple pressing of a knee against the panels.

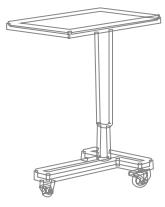

INSTRUMENT TABLES  
AND  
TREATMENT TROLLEYS

**HOSINOX instrument tables and treatment trolleys** are made of the highest quality of stainless steel and designed to support medical staff in all situations. Tables and trolleys are created to store surgical instruments and dressings during and after the surgical intervention or examination procedure.

#### MAIN FEATURES

Tables and trolleys are equipped with high quality castors with non-smudging wheels and bumpers which protect the table from damage. The tables have ergonomic handles for easy manoeuvring. Additional accessories such as drawers, bowls and trays can also be included.
